Shanlin Dudhiya

Full Stack Developer
+91 9824779516 | shanlindudhiya06@gmail.com | LinkedIn | GitHub | Portfolio
Ahmedabad, Gujarat, India

Professional Summary

Dedicated Full Stack Developer with hands-on experience building scalable web applications using React.js, Express.js, Node.js, and MongoDB. Proven track record in developing RESTful APIs, optimizing performance, and managing production deployments on Linux servers. Recently extended into AI-powered applications, building a retrieval-augmented generation (RAG) pipeline with vector search and LLM APIs. Passionate about modern JavaScript frameworks and industry best practices.

Technical Skills

Languages: JavaScript (ES6+), SQL, HTML, CSS
Frameworks/Libraries: React.js, Node.js, Express.js, Next.js
Databases: MySQL, MS SQL Server, MongoDB, PostgreSQL (pgvector)
AI/LLM: Google Gemini API, Voyage AI Embeddings, Retrieval-Augmented Generation (RAG)
Tools & Platforms: GitHub, VS Code, cPanel, FileZilla, REST APIs, Claude AI, ChatGPT, Gemini, Lovable, Copilot (AI-assisted development)
Cloud/DevOps: Linux Server Deployment, cPanel Hosting, Domain & SSL Management, SSH (PuTTY), Vercel, GitHub CI/CD

Work Experience

Green Leaves Academy Pvt. Ltd. July 2025 – June 2026
Full Stack Developer *Ahmedabad, India*

- Engineered and deployed the official company website (**greelacademy.online**) from the ground up using the MERN stack.
- Developed responsive frontend UI and robust backend business logic, ensuring cross-browser compatibility.
- Managed production deployment and server maintenance using **cPanel, FileZilla, and SSH (PuTTY)**.
- Integrated secure RESTful APIs and optimized SQL queries to improve data retrieval speeds by 20%.

Revelation Technologies LLP Jan 2025 – June 2025
MERN Stack Developer Trainee *Ahmedabad, India*

- Contributed to the **Smart Lab** live project, taking ownership of specific module end-to-end lifecycles.
- Built a **Tea Diary System** for vendors to automate daily order tracking and monthly billing cycles.
- Utilized **Next.js** to redesign the **Half Olive** client project, significantly improving SEO and load times.
- Enhanced UI/UX for the **Keshroot** project by migrating legacy components to **React.js** functional components.

InfiVidhiya Pvt. Ltd. June 2024 – July 2024
Full Stack Developer Trainee *Ahmedabad, India*

- Developed **BookWorm**, a responsive e-commerce platform for book discovery using vanilla JavaScript.
- Implemented advanced filtering logic for searching books by genre, author, and price range.

Personal Projects

Chat with a Website

Next.js, PostgreSQL (pgvector), Gemini, Voyage AI Live Demo | GitHub

- Built a full crawl-and-RAG pipeline: a same-domain, robots.txt-aware BFS crawler indexes a site's pages into chunked vector embeddings.
- Implemented retrieval-augmented generation with Google Gemini using structured JSON output, so every answer cites real retrieved sources instead of a hallucinated URL.
- Deployed the full stack (Next.js, Postgres/pgvector via Neon, embedding & generation APIs) to Vercel entirely on free-tier infrastructure at $0 hosting cost.

Bulk Mail Sender

React, Node.js, Express.js, Nodemailer GitHub

- Built a full-stack tool that parses uploaded Excel/Sheets contact lists via **xlsx**, extracting valid email addresses from any cell by pattern-matching, with no fixed column format required.
- Implemented bulk sending through Gmail SMTP (Nodemailer) with optional file attachments (**Multer**) and per-recipient delivery status (sent/failed) returned to the sender.

Bookworm

HTML, CSS, JavaScript GitHub

- Built a responsive book discovery storefront with category filtering across 100+ titles and a dedicated detail page for each book.
- Added a full Buy Now checkout flow that collects delivery details and processes payment through a single online-payment option (no cash-on-delivery).
- Refactored the codebase to remove dead code, fix a broken category filter, and make the layout mobile-responsive.

LR Photo Presets Platform

Node.js, Express, HTML, CSS GitHub

- Built an Express REST API serving a catalog of 8 curated preset packs across 6 photography categories, with server-side filtering.
- Implemented a clean, mobile-first drag-to-compare slider to showcase "Before/After" photo comparisons.
- Added a Buy Now checkout flow that collects delivery details and processes payment through a single online-payment option.

Education

Ahmedabad Institute of Technology 2022 – 2025

Bachelor of Engineering in Computer Engineering (CGPA: 7.56) *Ahmedabad, India*

R.C. Technical Institute 2019 – 2022

Diploma in Computer Engineering (CGPA: 8.50) *Ahmedabad, India*
